

Air filtration materials in compliance with the standards ISO 16890 and EN779.

### ISO Coarse 50% / G3 (EU3) fibreglass materials

#### **Duststop** **Paintstop**

- with thickness of 50mm, for coarse filtration of dust; materials have impregnated with paint
- with thickness of 75mm, separates paint mist from air. In that way, air pipes, fan blades, etc.

### Synthetic materials

ISO Coarse 50% / G3 (EU3) – with thickness of 10mm and 20mm.

ISO Coarse 65% / G4 (EU4) - with thickness of 10mm and 20mm.

ISO ePM10 60% / M5 (EU5) - with thickness of 10mm and 20mm.
